

NEGRO DEAD; OTHERS HURT

Free-For-All Fight Near Dothan
Saturday Night Results in
Arrest of Three Negroes.

One negro, Sterling Rogers, is dead, and another, Gus Mobley, is seriously injured as the result of wounds from a knife, and several others received blows and scratches in a free for all fight that occurred on the place of Larkin Dupree, five miles south of Dothan, Saturday night about 12 o'clock, the difficulty having started from a dispute in a "skinning" game.

After he had received a knife wound, which is said to have penetrated the heart, Sterling Rogers ran probably a hundred feet, falling over a fence, and after he had gotten up he was struck on the head by a stick in the hands of Jim Simmons, according to the officers.

Several of the negroes were gambling, it is said, when one, who had just about exhausted his stakes, attempted to pull something that is considered unfair in gaming, when another participant remonstrated. This caused a dispute, which resulted in the fight.

Webb Brown is being held in the county jail on a charge of killing Sterling Rogers; Will Tom Peterson is charged with slashing Gus Mobley in the neck, body, head and nose with a knife, and Jim Simmons is accused of hitting Sterling Rogers with a stick after the latter had received a death blow.

Deputies Aleck and Clarence May investigated the fight, and placed all the participants under arrest, bringing them to Dothan and lodging them in the county jail.

DIXIE HOTEL IS RAIDED

The Dixie Hotel was raided by deputies from Sheriff May's office Sunday morning about 2:00 o'clock, and a man and woman were arrested. They were arraigned before Justice T. W. Butler today and fined \$10 each.

Herman Woodall, who is connected with the hotel was arrested Monday morning on a charge of vagrancy, and made a \$150 bond. A warrant was also issued for C. P. Woodall on a similar charge. He is said to have been out of the city.

Sheriff May said today that about 25 persons had been arrested on charges of vagrancy during the past few weeks, and he says, "the ball has just started to rolling." He says the vagrancy law will be strictly enforced.

WOMEN'S MEETING

Sunday afternoon there was a great meeting of the men at Foster Street Methodist church. About four hundred responded to a call for men to worship God. They worshiped, and there was an almost unanimous response to an appeal to give their hearts and lives to God. Good for the men. God bless them.

Tuesday at 3:30 p. m., the mothers, wives and daughters of Dothan will gather before God at Foster Street Methodist church for worship and get His blessings upon them and their homes. We expect not less than five or six hundred at this meeting. The wives and daughters of Dothan will join their husbands and fathers in this mighty movement for better things. If they fail the victory is lost for they hold the key to the situation. The home is godly or ungodly, society is exalted or debased as woman wills it. The responsibility is great and it is believed that the noble womanhood of Dothan will rally to the call. One club, thru its president, has already called up the pastor and assured him that they will be on hand, and that they regarded the revival of paramount importance and that it should have the right of way over all else. God bless that club and its president. Let all the clubs likewise respond. The success of this meeting will be worth incomparably more to Dothan than twenty cent cotton. "What doth it PROVE a man if he gain the whole world and lose his own soul?" What will your pleasure or your business be worth to you if you lost your child? Let the mothers and wives consecrate themselves to God and the world is saved, the home is saved, society is made wholesome for their children. Let the multitude of Dothan's women come to worship God Tuesday afternoon at 3:30.

PRESIDENT REVIEWS MONSTER PARADE OF ATLANTIC FLEET

TWO ARRESTS MADE

Eli Ivins, charged with obtaining money under false pretenses, was arrested at Panama City, Fla., yesterday and brought back to Dothan by Deputy Sheriff Kornegay. Sheriff John A. May brought Jess Sneed, from Albany, Ga., to this city yesterday, where he is wanted on a charge of grand larceny.

New York—A slate colored dripping sky from which "occasional showers" fell, did nothing apparently to damage the interest of hundreds of thousands of spectators, shouldering and elbowing their way through the crowd to an eye-hole through which to see the monster parade of the Atlantic fleet forces here recently. The crowds were packed solidly from start to finish along the whole line of parade.

President Wilson who arrived on the presidential yacht Mayflower shortly after midnight, reviewed the parade from the grand stand. It was easy to see from the President's pleased countenance that he was very much pleased by and very proud of the fleet's marching thousands.

The picture shows the parade nearing the reviewing stand.

The above is a spontaneous response of the business men of Dothan to an appeal made in behalf of a revival of religion that is now on. The pastors express their appreciation and regard it as a sure sign that God is moving the hearts of the people toward a mighty revival in faith and the salvation of sinners.

Dr. Francis, who is doing the

preaching, says that it is one of the best responses he has seen anywhere.

Sunday afternoon about four hundred men attended the meeting and responded as one man to appeal to a higher and more Godly life in Christ Jesus. Tuesday at 3:30 p. m. the women and girls of Dothan will gather at the church for service. We expect five or six hundred to be present. The Lord is visiting His people.

ELIZABETH KNIGHT JONES

Elizabeth Knight, wife of B. P. Jones, of Valdosta, Ga., died last night at 9:50 o'clock at the family residence after an illness of ten weeks.

Mrs. Jones was the mother of Mrs. O. P. Green and Mr. J. H. Jones of Dothan, where she has often visited and where she was loved and esteemed by all who knew her. Her kindness of heart and gentleness of manner stamped her as a true gentle woman and her genuine Christian character was evidenced in all her relations with others.

She was a devoted wife, a loving and self-sacrificing mother, and a loyal friend.

Mrs. Jones passed away surrounded by her husband and entire family and to those sorrowing ones who are left behind we would say:

"There is no death! The stars go down,

To rise upon some fairer shore; And bright in heaven's jeweled crown

They shine forevermore.

And ever near us the unseen, The dear immortal spirits tread For all the universe

In life, there are no dead.

NEGRO SCHOOL IS GROWING

Commencement Exercises Held
Great Highway is Being Made
In Teaching Capital Avenues.

The commencement exercises of the City School for negroes were held Friday, and 40 or 50 garments, 2 dozen baskets, and about six specimens of produce of the school garden, were on display. This shows the great headway that has been made in teaching useful avocations.

The handwork of the pupils neatly arranged, attracted much favorable comment. O. W. Malone is principal of this school, which is doing much in Dothan towards the enlightenment and education of the negro race.

Prof. B. H. Southard, principal of the Dothan Grammar School, addressed the negro students at 11 o'clock, making an interesting talk on industrial education. His talk was highly appreciated by his hearers.

NEW STORE TO OPEN SOON

Friday, May 28, Date Set for Opening of R. C. Katz's Store

Dothan, Ala.

The new store, the Red Iron Market Store, which will be in Dothan what the Montgomery Fair is to Montgomery, has announced through Mr. I. Katz, the manager, that there will be a grand formal opening on Friday, May 28.

There will be several features connected with the opening, and Mr. Katz has arranged to give kinemads free to the thirty shoppers and candy to the children. On this day you do not have to buy, Mr. Katz says, come and bring the whole family and enjoy the hospitality of the Red Iron Market Store.

FLOOD OF LAVA

CHASER COURIER

Redding, Cal., May 23.—Hot Creek valley, which was threatened with destruction last year by the eruption of Lassen Peak, has been saved. The flood which followed the disturbance, it was learned today, changed its course, the main mud flow being caught out into the old lava fields.

The entire valley was shaken by a strong earthquake last previous to yesterday's eruption. Clouds hid the volcano all morning.

NEW PHONE ARRANGEMENT

Southern Independents Form an Organization in Memphis.

Memphis, Tenn., May 23.—The Southern States Independent Telephone association was formally organized here today with a membership representing, it is claimed, investments of more than \$25,000,000 in the south and plans were perfected for the establishment of a so-called independent long distance telephone service throughout the southern states and as far north as the Ohio river. This is expected to be accomplished by an arrangement with the Postal Telegraph company, which, it was announced, virtually had been completed.

Albert Poulette, of Bristol, Va., was elected president of the new organization which will succeed the Tri-state Independent Telephone association.

A Remarkable Conclusion.

This paper does not believe that the time has come for women to vote in Alabama, unless their ballot be safeguarded by several restrictions; but they could undoubtedly vote intelligently at present on many of the social and moral questions that must needs be passed upon at the polls, and especially fitted are the women to vote to good purpose on questions of educational import.—Anniston Star.

What a strange conclusion. What a remarkable position. Of all the questions that are to be voted upon, what question is of more vital importance than that of education? Is there any other question in which the people of Alabama are more vitally interested than that of education? Is it not a fact that we give more of our tax money to the educational than to any other department of our state?

Such being the case, by what process of reasoning does our esteemed Anniston contemporary arrive at the conclusion that women could be trusted to vote intelligently on that great question and matters affecting and pertaining thereto, while they are not yet sufficiently capacitated to vote intelligently on questions of less vital importance?

It would also doubtless be interesting, should the Anniston Star and Hot Blast decide to tell its readers, just what kind of restrictions, other than those thrown around the male voters of this state, it really thinks should be thrown around the ballot of our intelligent, Christian mothers, wives and sisters, in the event it is determined to take them out of their present classification, which happens to be along with minors, the insane, idiots, foreigners and convicts.—Opelika News.

What are those "restrictions?" You probably don't know, Mr. News man. Why, that means that women could vote in almost anything, except the great moral questions. They are not to be allowed to vote on those, evidently. For "restriction" is bound to be thrown around them.

The man who doesn't know who's a rascal, and who has his poll tax paid by another, and lets the other fill the ticket, why, he's alright. He's a free-born American citizen exercising his political rights, but the woman, matters not what her education or training might be, she isn't in his class and never could be. She might be able to teach a townshipful of voters political economy, but she isn't a competent judge of who would make a good official, and what would be good laws and what would be bad ones.

Yes, we must "restrict" this voting privilege to women! Church!

We stagger when we think that 350,000 persons in Alabama over the age of ten years cannot read about the great Gospel of Jesus Christ. Let's stop agitation and try education.—Andalusia Star.

Let's stop robbing the people and begin paying the teachers. That will help some.—Guntersville Democrat.

Clangers in Cotton Seed Meal.

The farmer who swaps his cotton seed for cotton seed meal, doesn't care for putting in any extra weight, or "body" in the shape of cinders or sand. In fact, he would much prefer that the meal be made pure, leaving out all the "fillers" the fertilizer and oil mill men see fit to dump into it.

Here in Dothan, hundreds of people buy cotton seed meal to feed cows on. It is too much trouble to take the meal and soak it, in order that the finely ground cinders and other foreign substance, might be allowed to settle to the bottom. No cow cares especially for cinders ground up. When a cow is fed on this junk, she falls off materially in milk.

We believe that it would be a good idea to manufacture meal for feeding purposes out of pure cotton seed meal, and if the farmer wants to buy meal for fertilizer that is mixed with cinders, then let him buy that, but the tag should be plainly branded just what the filler is composed of.

At the last meeting of the legislature a bill was presented that looked to remedying this evil. It hasn't though. Meal is being manufactured and sold in Dothan that shouldn't be allowed sold, unless the tag stated just what was used as a filler.

Anyone who buys meal for feeding purposes, only has to examine it closely. It looks very much like meal with the hulls ground up in it, and it may have, but it also has cinders ground up in it for some unexplainable reason.

If the oil mills, which paid half price for cotton seed to the farmers during the most of the selling season, cannot make money in the business without this kind of adulteration, it is time they were quitting the business, or raising the price on the pure product. When you want pure cotton seed meal you shouldn't be forced to buy about 50 pounds of a useless filler.

The Dothan Eagle uses as their motto: "For I heard them say, Let us go to Dothan." It seems to us that if they are so very anxious for people to go to Dothan they would negotiate with their sister county of Dale for the building of some roads between Ozark and Dothan so that more automobiles from this section would be able to go to Dothan.—Gila Free Press.

Houston county stands ready to do its part toward connecting the good roads between this county and Dale, but it cannot go out of its territory, and over into Dale, to build good roads, as many as we have yet to build. There is only a stretch of some four or five miles from our good roads to the Dale line. Let Dale come up to the line, and Houston will do the rest.

Some Remarkable Exhibits at the Panama-Pacific International Exposition

Exhibits in Agricultural Palace at the Panama-Pacific International Exposition Show Caterpillar Gaining Power Over Long-wheel Tractor in Farm Machinery.

An observer in the Agricultural Palace at the Panama-Pacific International Exposition at San Francisco cannot help noticing, in the display of agricultural power machinery, the almost complete supersession of the new design of power tractor, known as the caterpillar, over the cumbersome, motable, high-wheeled engine of a few years ago. There are few of the old models on exhibition, while the caterpillar principle has been applied to almost every type of engine for agricultural purposes.

The caterpillar proper is a heavy sheet metal chain, varying in width from ten inches to two feet according to the weight of the engine which passes around two heavy sprocket wheels like a belt. These wheels revolving, pass the chain about them, the lower part moving backward, with the weight of the engine resting on the broad surface of the chain between the two sprockets.

An engine of this type can be operated on ground soft enough to mire an ordinary farm wagon.

Duplicate of the Roosevelt African Shotgun.

A duplicate of the shotgun which Col. Theodore Roosevelt took with him on his African trip, a gun constructed expressly for him by an American armorer, is on display at the manufacturer's exhibit in the Manufacturers' Palace at the Panama-Pacific International Exposition, San Francisco. The gun cost its illustrious owner \$200, and its beautiful design, graceful lines and wonderful inlay work would justify the expenditure to any lover of fine pieces. The stock is elaborately hand-carved, the barrels and lock are hand-engraved, and the lock is inlaid with a hunting scene in gold. The barrels are of the finest Krupp steel. Before starting on the trip the ex-president wrote to the makers: "I really think it is the most beautiful gun I have ever seen. I am almost ashamed to take it to Africa and subject it to the rough treatment it will receive."

The left barrel is choked and the right open. It is used to shoot either buckshot or a single ball.

In a group in this Palace are displays by four of the world's greatest manufacturers of sporting arms, which form an exhibit which attracts hundreds of sportsmen. Each display is in charge of a firearms expert.

Pearl Culture a New Industry. Among the interesting exhibits of the Japanese in the Manufacturers' Palace at the Panama-Pacific International Exposition is a demonstration of the methods and results of pearl cultivation in the far East. The displays of this cultivated product, showing hundreds of pearls which until pearl culture was placed on a commercial basis a few years ago would have been the possession of royalty, will delight any lover of beautiful gems, and the methods of production will prove interesting to any observer. Though pearl culture has become a thriving industry in Japan, attempts to reproduce it in other parts of the world have yielded but meager results.

The successful method of propagation was evolved by the Japanese scientist Kokichi Mikimoto, who discovered a species of oyster which produced the pearl on the surface of the shell. Though the finding of the oysters and inserting the nuclei, then waiting for the pearl to grow to a commercial size may seem a simple process, the fact that it has not reduced the price of the gems, even to that of the most expensive imitations, shows that it is beset with many difficulties.

Daniel Webster's Play at the Panama-Pacific International Exposition.

One of the most valuable exhibits commercially, in the Agricultural Palace at the Panama-Pacific International Exposition, San Francisco, is an ancient plow displayed in the Massachusetts exhibit, and forming a striking contrast to the highly-complex modern machinery displayed on the acreage of four acres.

The plow owes its destination to the circumstance that a hundred years ago Daniel Webster's youthful hands guided it along the furrows of his father's farm near Marshfield, Mass. It was driven by a yoke of oxen and if the future pair of Americans ever and a day he had to work from daylight to dark.

INTERNATIONAL HARVESTER

Why Do We Sell International Harvester Engines?
We recommend and sell International Harvester oil and gas engines because of the universal satisfaction they give to our customers. The weight is ample and is in the right place; the castings are sand-cooled, insuring evenness of texture and strength; the design of every part is of the most approved type; simple, yet complete in every detail; easy to manage, requiring little attention beyond regular oiling; developing from 10 to 30 per cent more than their rated horsepower. I H C engines of all sizes make friends wherever they go. This series of advertisements will explain fully why I H C engines are such good values. One or two features will be taken up at a time, so that when you are through with the series you will be well posted on engines. All the time these advertisements are running, we shall have a demonstrating engine on the floor here, ready to show you what to expect for your money when you buy an I H C engine.

A Wonderful Change--

Compare today's methods of baking with the old days when Aunt Dinah used sour milk and soda and baked on the open hearth, and you'll find wonderful improvements. The most wonderful of these modern helps is--

CALUMET Baking Powder

Surprisingly better than any other brand. Never a disappointment. Your biscuits will be light and sweet—Your cakes will raise evenly and will retain that moist delicate sweetness for days. Calumet cakes don't dry out quickly. Calumet costs less than the Trust made kind—yet it's better—costs a little more than the cheap "Big-Can" brands, but it is worth the difference. Every spoonful does its work perfectly—no failures—no waste.

Buy a Can from your grocer today and watch your baking troubles disappear. If you don't get Calumet, you don't get the best.

RECEIVED HIGHEST AWARDS
World's Pure Food Exposition, Chicago, Illinois
Paris Exposition, France, March, 1912.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

Honest Paint and Honest Measure

In these days of counterfeits, adulterations and substitutions a man can't be too careful in buying such a commodity as paint. The ingredients of liquid paint and the processes of making it are a "closed book" to the average man, and the temptation to make big profits on most inferior grades has proven too strong for some manufacturers.

Would you know at sight whether the can contained the full U. S. Standard measure?

Would you take the trouble to measure each can even if you were doubtful? Don't take chances of getting worthless paint or short measure for your money—Be assured of full value by getting Low Brothers "High Standard" Liquid Paint. Its reputation is known. For thirty-five years Low Brothers have been making Paint as well as they know—and ever looking for a way to make it better. Believing that best paint could be made only from best materials, no other materials are used in their mills.

They use the most highly perfected machinery and employ only workers of skill and experience in paint manufacture.

"High Standard" Liquid Paint wears and retains its look of freshness and newness much longer than ordinary paints; it covers a greater surface to the gallon, and spreads more evenly over that surface. It is made to give full satisfaction—and it does.

Buy a gallon can of Low Brothers "High Standard" Liquid Paint and it contains one full gallon; if a pint can, it has one full pint—government measure. This is the Low way, and there are no exceptions to it. Just as dependable as "High Standard" Liquid Paint are Low Brothers Varnishes and Enamels, for exterior or interior finish. Quick, hard drying floor paint, a varnish paint of great durability. They are the best values to be had. Let us make suggestions for your color combinations. Ask for Booklets and Color Cards. QUIT MEAT WHEN

KIDNEYS BOTHER

Take a Glass of Salts if Your
Back Hurts or Bladder
Troubles You.

No man or woman who eats meat regularly can make a mistake by drinking the kidneys and, occasionally, save a well known authority. Meat forms acid and which excites the kidneys. They become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Near by all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, iridescent, or if you are troubled with a sensation of swelling, stop eat meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful dry before breakfast, the winner of the improvement fast and in a few days your kidneys will act fine. This famous herb of the senior class making the salts is made from the acid of greatest improvement in celery grapes and lemon juice, combined with the senior yeast. He with lithia, and has been used for is a son of Hon. B. G. Farmer of generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

COWDRY FARMER

WINS HONORS AT BOWEN SCHOOL

The following is taken from the Nashville Tennessean with reference to the closing exercises of the Bowen School, of that city:

"The Bowen school closed for the scholastic year Tuesday and the commencement exercises, in accordance with the long established custom of the academy, were simple and unostentatious. Prof. A. G. Bowen, the principal, and his associates, Pres. C. C. and Spiegler, delivered appropriate and impressive addresses, after which the two medals were awarded to the successful contestants.

"The scholarship medal was won by W. K. Province of this city, he having maintained the highest average throughout the four years' course. Young Province is a son of Rev. William A. Province, formerly of Columbia, Tenn., but for several years a resident of Nashville. Cowdry Farmer, of Dothan, Ala., was the winner of the improvement medal, which given to that young man by Hon. B. G. Farmer of generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

"The senior class was composed of the following: William K. Province, president; J. Washington Moore, Jr., vice president; Robert L. Overton, prophet; Carroll L. Jones, poet; Dorris Thompson, Louisiana; Thomas J. Whatley, of Alabama; Walter Cowdry Farmer, Alabama; Paul A. Rice, Gordon Martin, Joe Jernigan, Jr., and Edgar Peebles.

"During the eighteen years of its history the Bowen School has established quite a strong position among the academies of Nashville and Middle Tennessee. It is today a distinguished institution."

who are making reputations in business, educational and professional vocations in this and other cities of the South, including three winners of Rhodes scholarships."

Cowdry and Charlie Farmer, T. J. Whatley, B. F. Green and Harlan Lively, were Dothan students in the Bowen School.

Enterprise Market will close for revival services every day, 10 to 11 o'clock. Please get your orders in before 9:30.

BITTEN BY MOCCASIN

While out at a pond looking for May haws a few days ago, G. N. Farmer, a salesman for the Newton Tannery Co., was bitten in the calf of the left leg by a moccasin. He was given all the temporary relief possible, and rushed to the city for medical treatment. Although his leg is badly swollen, Mr. Farmer is reported feeling as well as could be expected today.

WOMAN WANTS TO HELP OTHERS

By Telling How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Miami, Okla. — "I had a female trouble and weakness that annoyed me continually. I tried doctors and all kinds of medicine for several years but was not cured until I took Lydia E. Pinkham's Vegetable Compound. I hope my testimony will help other suffering women to try your wonderful medicine." — Mrs. M. E. MALLAM, Box 234, Commerce, Okla.

Another Woman who has Found Health in Lydia E. Pinkham's Vegetable Compound.

Lubbock, Kansas. — "Some years ago I suffered with terrible pains in my side which I thought were inflammation, also with a bearing down pain, backache, and I was at times awfully nervous. I took three bottles of Lydia E. Pinkham's Vegetable Compound and am now enjoying good health. I will be glad to recommend your medicine to any woman suffering with female troubles and you may publish this letter." — Mrs. A. L. BERRY, R. No. 4, Box 60, Lubbock, Kansas.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

DOTHAN STILL IN WIN RANKS

Thomasville and Waveros Here

This Week—Exciting Games

Are Promised—Frank

Blackwell Goes With

Orphans

Dothan won the last of a series of three games from the Orphans yesterday, the home run knocked by Shortstop Perry Burrows tying the score. The locals managed to put over another run, which made the final score 2 to 1. Hall pitched for Dothan and gave up 3 hits, while the locals got 10 off Glen Messy.

Frank Blackwell has been signed by Manager Wagner of the Orphans, and will play second base. He is a fast player and will be a valuable addition to the team.

Thomasville, Ga., comes to Dothan today for a series of three games with the locals. Monday, Tuesday and Wednesday, after which the Waveros, Ga., team will be here Thursday, Friday and Saturday. Baseball all this week, and some good games are promised, too.

PASCHAL'S REVENGE

(Adapted to "Casey's Revenge."—Moore.)

There were saddened hearts in Dothan, For a week, or even more, There were muttered omens and curses, Every fan in town was sore, Just think, said one, how soft it looked With Paschal at the bat, And then to think he'd go and spring A bush league trick like that.

All his past fame is forgotten, He is now a hopeless dhime, And they called him "Strike out Paschal," From the Mayor, down the line, And as he takes his place to bat each day His bosom heaves a sigh, And a look of fury shines in Paschal's eye.

His rugged face no longer wears a frown, For the pitcher who started all the trouble came to town,

And as he stepped into the box, The multitude went wild, He doffed his cap in proud disdain, But Paschal only smiled.

All Dothan had assembled, Three thousand fans had come To see the mighty twirler Who had put big Paschal on the bum, Play Ball, the umpire's voice rang out, And then the game began, And in that throng of thousands There was not a single fan Who thought that Dothan had a chance— And with the setting sun their hopes sank low The rival team was leading four to one.

Three men on bases, nobody out, Three runs to tie the game, A triple meant the highest niche In Dothan's hall of fame, But here the rally ended, The gloom grew deep as night When the first fouled out to catcher, And the second flew out to right.

A dismal groan in chorus came, A scowl was on each face When Paschal walked up, bat in hand And slowly took his place, His bloodshot eyes in fury gleamed, His teeth were clinched in hate He gave his cap a vicious pull And pounded on the plate.

Now fame is as fleeting as the winds, And glory soon fades away, There were no wild and woolly cheers, No loud acclaim this day They hissed, groaned and booed As they clamored, strike him out, But Paschal gave no outward sign That he had heard the shout.

The pitcher smiled and then cut loose, Across the plate it sped, Another hiss, another groan, Strike One, the umpire said, And then the pitcher whirled again A whack, a crack, and out through space The leather pellet flew, A blot against the distant sky A speck before the blue.

Above the fence in center field, In rapid whirling flight, The sphere sailed on, the blot grew dim, And then was lost to sight, Three thousand hats were thrown in the air, Three thousand threw a fit, But no one ever found the ball That Mighty Paschal hit.

The World in Epitome Shown by Displays in the Vast Exhibit Palaces at the Panama-Pacific International Exposition.

Today the great Panama-Pacific International Exposition at San Francisco is being widely exploited throughout the world by the millions of sight-seers who have visited the exposition since its opening on February 20th last as the most beautiful, comprehensive and interesting universal exposition that the world has ever known. The wonderful exhibit palaces house the treasures of the earth, while the grounds, planted to millions of rare bulbs, are a gorgeous mass of color and fragrance. To the visitor entering the gates for the first time, either by night or day, the scene is certain to hold the newcomer spellbound, as the vast panorama unfolds bit by bit before the gaze and the eye wanders from one beauty spot to another in an endless chain of amazing surprises. Entering the main gate at Scott street, for instance, the visitor sees the great Fountain of Energy directly before him; its great sprays sparkling and flashing in the light of the warm California sun by day, or assuming the appearance of masses of burning flames by night under the powerful beams of the great batteries of searchlights trained upon this work of art. As the spell is lifted the eye falls upon the Tower of Jewels, the great center piece of the exposition, and again attention is attracted until the eye has conquered the dizzy heights of this gem-encrusted tower, every cornice and figure sending forth its share of dazzling lights.

The world's advance in all branches of art, science and industry is minutely portrayed in the exhibits. Among the electrical exhibits, for example, is the Audion amplifier, invented by Lee De Forest. Through this invention the visitor in the Liberal Arts palace is enabled to converse over the long distance telephone with his relatives at the farthest corner of the Atlantic coast and may hear the voice of the speaker in greater volume than was actually given into the transmitting telephone. The intensity of the sound is increased by passing through heat waves. Today it is possible for an artist in New York city to address through the telephone a large audience at San Francisco, the sound being increased so that it is of power great enough to fill a large hall. This single advance in the development of the telephone is paralleled in hundreds of other lines. The railroads have made great advances in speed and safety and electric communication are to be had

PEOPLE TO BE TRUSTED.

The reason why governments have not done and are not doing their duty toward the suppression of alcohol is, in the last analysis, says Congressman Hobson, "based on the absence of public opinion on the part of the masses as to the true nature of alcohol and the appalling results that come from its use." And Dr. T. D. Crothers, the noted expert on alcoholism, declares that "if the actual effects of alcohol were known by the people, prohibiting its use would follow as a natural and reasonable demand." To bring to the people knowledge concerning the nature of alcohol and its effects upon the individual, the family, the state, is the purpose of the organized campaign of education now being carried on throughout the land from remote country-side to halls of congress. Given the facts, the intelligent people of this nation will soon settle the liquor question and settle it right. Bring the truth to the masses!

A woman is happy and attains all that she desires when she captivates a man; hence the great object of her life is to master the art of captivating men.—Count Lyot N. Tolstol.

You may chisel a boy into shape, as you would a rock, or hammer him into it, if he be of a better material, as you would a piece of bronze. But you cannot hammer a girl into anything.—John Ruskin.

DON'T STAY BILIOUS, CONSTIPATED

"Dothan's Liver Tonic" Will Clean Your Stomach and Make You Healthy

Colic makes you sick; you lose a day's work. Colic is poisonous and it salivates; colic injures your liver. If you are bilious; feel lousy, sluggish and all knotted out, if your bowels are constipated and your head aches or stomach is sour, just take a spoonful of harmless Dothan's Liver Tonic instead of using sickening, salivating colic medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and distress gone, your stomach will be sweet and bowels regular. You will feel like working. You'll be cheerful; full of energy, vigor and ambition.

Your druggist or dealer tells you a so-called bottle of Dothan's Liver Tonic under my personal guarantee that it will clean your sluggish liver better than any other colic medicine; it won't make you sick and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will clean your liver, clean your bowels and strengthen you up by morning or you get your money back. Children gladly take Dothan's Liver Tonic because it is pleasant tasting and doesn't gripe or cramp or make them sick. I am selling millions of bottles of Dothan's Liver Tonic to people who have found that this pleasant, vegetable, liver medicine takes the place of dangerous colic medicine. Buy one bottle on my personal reliable guarantee. Ask your druggist about it.
